**Subject:** Former Rhone Poulenc field activity notice

Janette,

This notice is being provided on behalf of the Respondents to fulfill the requirement for notification of upcoming field activities in the U.S. Environmental Protection Agency Region 10 Administrative Order on Consent No. 1091-11-20-3008(h). DOF currently plans to perform inspections of monitoring wells the week of March 15, 2020 to assess the need for redevelopment in relation to upcoming field work under the Pre-CMS Data Collection Work Plan. The work will include collection of total depth measurements to evaluate sedimentation and determine if redevelopment is necessary prior to sample collection.

Please let me know if you have any questions.

Thank you,

Tasya

***Tasya Gray, LG***
